ADDENDUM TO DETERMINATION OF NONSIGNIFICANCE

DATED: July 26, 2012

Name of DNS: #12-057 DURR ROAD BRIDGE

Description of DNS:

The Durr Creek bridge (60' x 12') is proposed to replace the at-grade ford. The bridge will remove motor vehicles and associated pollutants from the creek bed and is designed with the bridge stringers above the of the 100-year flood elevation. Umtanum Creek, a perennial creek, is used by migrating and spawning steelhead. The project area is approximately 150 feet long by 40 feet wide.

Proponent/Applicant:

Washington Department of Fish and Wildlife
600 Capitol Way N, Olympia, WA 98501
Attn: Kristen Kuykendall
(360) 902-8383

Location of DNS, including street, if any: Kittitas County; Southeast 1/4 of Section 16, Township 16 North, Range 18 East WM

Lead Agency: Washington Department of Fish and Wildlife (WDFW)

WDFW is providing updated information on this project that may be of interest to other agencies or the public. The updated information provided below does not substantially change the analysis of significant impacts in the existing environmental checklist.

The original environmental checklist dated July, 24, 2012, should be modified to reflect the following change:

Item 13. Historic and Cultural Preservation should read:

13. Historic and cultural preservation

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.

A Cultural Review for the Wenatchee, WA roads including this project area was completed by Archaeological Investigations Northwest Inc. May 31, 2006. This Report No. 1694 is on file with the Department of Archaeological and Historic Preservation.

b. Generally describe any landmarks or evidence of historic, archaeological, scientific, or cultural importance known to be on or next to the site.

None were found at or in proximity to the site.

c. Proposed measures to reduce or control impacts, if any:

Should any cultural resources be identified within the project area during the operational phase, work will cease in that area and a professional archaeologist will be notified immediately and a site protection plan will be developed.

Based on the original environmental checklist and the updated information provided in this addendum, we have determined that a new threshold determination is not warranted. There is no comment period associated with this SEPA environmental checklist addendum.
